Due to the severe storm that struck the area this afternoon, Mayor John A. Harkins has declared a "State of Emergency" for the Town of Stratford, particularly the Lordship section of Town. Streets in several areas of the Town are impassable due to downed trees and power lines.

Residents are urged to stay indoors for their own safety and to facilitate the cleanup in the storm's aftermath. Please do not go near any downed trees or power lines and do not interfere with crews who are attempting to clear the roads and restore power. Police will be on patrol, especially in Lordship, to ensure compliance.

Thank you all in advance for your cooperation.
