

**TOWN OF STRATFORD
BID #2015-035
Data Technology and Equipment**

**ADDENDUM #1
Issued 7/10/15**

Vendor Questions:

Vendor A: Will you be awarding one vendor the entire bid or looking at each line item as a separate bid?

It is possible to award the entire bid. Actually this would be preferred.

Vendor B: Will you allow the bidding of one line item?

Yes.

Vendor C: Can we offer equals on this bid? QTY requested is a estimated QTY? or its actual? QTY requested will be ordered together & shipped to same location?

No, must be exact items unless the product is no longer available. The estimated amounts will be ordered, but more orders could be placed during the next 6 months and pricing needs to stay the same unless the product goes end of life. Initial order to one location.

Multiple Vendors: Item# 4 (iQ16 Lock N Charge Security & Charging Cart) has been discontinued from the manufacturer. There is a Carrier 20 charging cart (#LNC8150) now available and please advise if this is a suitable replacement for the iQ16 and if the quantity of 12 would be the same.

Yes. We will consider all alternative carts, but iQ Carrier Cart 20 would be preferred. The cart must hold at least 16 iPads, have a security lock, charging capability and USB sync to simultaneously update all devices. The quantity of 12 would be the same.
