

Stratford Complete Streets Design Charrette

Stratford, CT | May 31-June 2, 2016

Our Mission...

- Create identity for the City of Stratford with high level of aesthetics and entry to downtown centers
- Enhance streets to be safe for people, regardless of their chosen mode of transport (walking, biking, driving, transit)
- Provide multiple choices for mobility
- Incorporate planned trail connections
- Right-size and reallocate pavement to leverage investment
- Minimize rebuild of the street – maintain curblines (where possible)

Think of the Space between Buildings as an Asset

- Parking
 - Parallel
 - Angled (head in/back in)
 - Bicycle
- Wider Sidewalks
- Street Furniture
- Streetscape
- Stormwater
 - Rain Gardens
 - Bioswales
- Bike Facilities
 - Bike lanes
 - Cycle Tracks
 - Multi-use Paths
- Medians
 - Turn lanes
 - Planting opportunities
 - Access Management
